Testimonials

"Gina is an exceptional Business Improvement Transformation Manager with a proven history of leading businesses to achieve optimal outcomes through intelligent use of IT solutions (process improvement identification and delivery) and successful management of change associated with major SAP ERP implementations (process design, training delivery/co-ordination, data preparation, business support)." - John Zahra, IT Applications Manager at GFG Alliance, Australia

"Gina is a professional program manager with deep understanding of processes and rigor required to deliver. She is commercially minded and has a customer focused mindset. She can manage effectively both IT and Business process improvement projects and is not afraid to challenge the status quo when and if needed. Because of her ability to manage both IT and BPI projects, she has developed excellent skills to deep deploy the processes through system mitigation." - Vik, Bansal Group CEO and Managing Director at Boral, Chairman.

"March provided excellent support to the Carrapateena and Prominent Hill operations over the recent integration period building strong relationships with the GMs at both sites and supporting Prominent Hill in the later stages of the integration plan. His engagement helped the site with early BOS enablement and he helped deliver on a range of improvements and activity that supported the site through this significant period of change. Thanks March for all the effort, it is appreciated." - Michael McKay, Head of Technical Portfolio BHP
